

ABOUT THE LAWRENCE COUNTY INDUSTRIAL DEVELOPMENT COUNCIL

Lawrence County Illinois enjoys a strong alliance of county, city and state organizations where public and private sectors work together to meet your needs. The Lawrence County Industrial Development Council (LCIDC) was formed over 30 years ago to serve as the primary point of contact for business and industry inquiries. Our Council partners with local leaders to provide a welcoming, business-friendly environment that is tailored to your needs. We are an experienced administrator of a Revolving Loan Program. We also operate one of only eight Foreign Trade Zones (FTZ) residing in Illinois. The FTZ illustrates our county's visionary commitment to commercial growth and success.

Opportunity Zone attracts capital gains investment and promotes development in almost one-half of our county. Primary gateways are U.S. Route 50 and Illinois Route 1- both transportation arteries. Our zone is comprised of prairie cropland, fed by excellent aquifers and ripe for new development.

Revolving Loan Fund (RLF) provides county businesses with financial support for approved startup and expansion plans. The LCIDC accepts applications and explains lending policies, rates and terms. We work closely with primary lenders to assure that our supporting role is helpful to local projects. You may obtain basic information and an application from the LCIDC staff.

Foreign Trade Zone 146 enables our region to compete fairly on the world stage. The zone's secure operations earn waivers from certain duties and fees when bringing components into the U.S.A.

Hours: By Appointment Only
